

YOU DID IT AGAIN! 11,000 MORE PEOPLE ARE ENJOYING CLEAN WATER!

Before a TLP water system...

Traditionally, supplying water for the family was the task of girls and women.

Can you imagine a young girl being sent on a 6-10-mile daily walk (one way) to collect much-needed water such as this? This is still the reality for many poor rural villages in Tanzania. We have more work to do!

The Iringa Mvumi water system is now complete!

Before the water system was installed in Iringa Mvumi, the villagers attended empowerment seminars led by local leaders. They were made aware of current Tanzanian laws and modern cultural practices that empower men and women to work together as equals. Men and boys now share in the responsibility of obtaining water for their families.

Your donations helped the 11,000 villagers of Iringa Mvumi gain access to an abundant well. Clear, clean water is now piped to 24 distribution points spread throughout the neighborhoods of the village! Health and safety have improved as people now walk no more than six blocks from home to access clean water for their daily needs.

Ikombolinga Village eagerly awaits clean water...

Can you feel the JOY?!

Ikombolinga has 5,125 thirsty people! TLP staff in Tanzania have begun discussions with village leadership, and there is much excitement about a future with clean water.

Together let's make clean water a reality for them in 2021! 💧

DONATE TODAY!

Asante Sana

At the end of 2020, we received a generous donation of \$100,000 from the estate of a long-term donor who thoughtfully included TLP in his will. His legacy gift reflects his lifetime passion for economic development—access to clean water being an integral part. **We are very grateful for this gift and hope it will inspire you to also consider how your own legacy could live on through Tanzania Life Project.**

100% of your donations go directly to serve the people in Africa.

Thanks to a generous new donor who paid the 2.7% expenses for 2021.
