

It only takes \$40 to change a life – we’ve done it 100,000 times!
20 YEARS, 20 WATER SYSTEMS COMPLETED...and we’re just getting started!

A LEGACY OF IMPACT

Founded in 2005 by Jim and Katie Vanderheyden, Tanzania Life Project began with a single moment: *reactivating a dormant well in a Tanzanian village and witnessing children experience clean water for the first time.* That moment sparked a lasting commitment to bring sustainable clean water to underserved communities in Central Tanzania.

Dirty, standing water is used by those without access to a clean source of water.

PROGRESS AND GROWTH

Over the years, TLP has made significant strides in its mission:

- 

Water Systems Installed: TLP has successfully installed water systems in 20 villages, benefitting over 100,000 men, women and children.

Sustainability: Since 2005, all installed water systems remain operational, thanks to TLP’s sustainability program and the governance structures put into place.

Volunteer-Driven Leadership = High Program Allocation: TLP is managed by a volunteer and unpaid Leadership Team in the USA. ***This allows for 97% of all donations to be directed to clean water projects.***

PROJECT OUTCOMES

- With each water project, we aim to:

 - ✓ Improve the health, quality of life and livelihood opportunities of the villagers through access to clean water
 - ✓ Increase good hygiene practices to improve overall health
 - ✓ Increase the empowerment of women, men, and children to create an equitable and caring culture
 - ✓ Empower girls and women to stay in school and work year-round by removing menstruation as a barrier via education and washable pads
 - ✓ Ensure the sustainability of each project so that the community will continue to have a source of clean water for years to come

JOIN THE MOVEMENT

We’re changing lives—one village at a time. But with your help, we can do even more, faster. Every day without clean water puts families—especially children—at risk. For just **\$40**, you can give one person a lifetime of safe water. That’s more than a donation—it’s a new beginning. **Will you be the reason someone’s life changes today?** Whether you give, volunteer, or spread the word, you’re helping build stronger, healthier communities. Let’s do more—together.

97% of your donations go directly to Tanzania to provide sustainable access to clean water
